We are so happy that you were able to participate in our 6th Annual Customer Appreciation Golf Event with all proceeds going to the YMCA. Thank you for taking the time to attend. It's always awesome to get everyone together.

The synergy created with the Vendors, Dealers and Team Extreme proved success with the Cheque Donation of \$43,000.00 to a cause that is very near and dear to our heart, impacting kids within our communities. In the past 6 years, we have reached a grand total of \$158,000.00 donated to the YMCA.

As you know it takes everyone to come together to have a successful event...

Thank You very much for being part of it.

DID YOU KNOW?

The first cell phone call was in New York City.
In 1973, the first-ever mobile phone call was made by Martin Cooper, an employee of Motorola, made from the streets of New York City. It wasn't until 19 years later when Neil Papworth sent the first SMS message, which brings us to our next tech fact:

DID YOU KNOW?

The first product scanned was a packet of chewing gum in 1974.

Norman Joseph Woodland invented the barcode and received a patent in October 1952. It wasn't until 22 years later when he was employed by IBM that the barcode was developed to be used for product labeling. Known as the Universal Product Code (UPC), a system that is still used today.

DID YOU KNOW?

The most expensive phone number cost millions.
 Back in 2006, Qatar Telecom hosted a charity auction where they sold the phone number 666-6666. It sold for \$2.75 million, bought by an anonymous bidder.

DID YOU KNOW?

The first alarm clock could only ring at one time.

Literally, one time! The first mechanical alarm clock could only ring at 4 a.m. invented by Levi Hutchins in 1787. It wasn't until 1876 that a wind-up alarm clock was made that could be set for any time.

DID YOU KNOW?

The first Apple logo isn't what you would think.

Originally, it featured Sir Isaac Newton sitting beneath a tree, with an apple about to fall on his head. It was designed back in 1976 and featured a phrase around the border that read "Newton... A mind forever voyaging through strange seas of thought...alone".

DID YOU KNOW?

A “jiffy” is a real measurement.

If you’ve ever said, “I’ll be back in a jiffy,” you were actually saying, “I’ll be back in 10 milliseconds.” A jiffy is an actual measurement of time, referring to the length of one cycle of the computer’s system clock (about 10 milliseconds). When used in physics, it stands for the amount of time that it takes light to travel one centimeter.

DID YOU KNOW?

Nintendo didn't start as a video games company.

Founded in 1889, Nintendo was around long before computers!
So what did they sell? From 1889-1956, Nintendo was a playing card company.
They still manufacture playing cards in Japan and even have a bridge tournament called the "Nintendo Cup."
